Contents

NUMBER 1, JANUARY 1984

1 Editorial
3 *R. A. Moss and J. C. Garrett:* Temporomandibular joint dysfunction syndrome and myofascial pain dysfunction syndrome: a critical review
29 *D. Lundgren and L. Laurell:* Occlusal forces in prosthetically restored dentitions: a methodological study
39 *L. Laurell and D. Lundgren:* A standardized programme for studying the occlusal force pattern during chewing and biting in prosthetically restored dentitions
45 *P. J. Cox and P. S. Rothwell:* Serum creatine kinase studies in mandibular pain dysfunction
53 *T. D. Swanson and N. Tinanoff:* Antiplaque properties of sustained release SnF_2: pilot stuidies
65 *D. Ben-Yaakov, M. Friedman, Z. Hirschfeld and I. Gedalia:* Fluoride enhancement of chlorhexidine uptake by hydroxypatite and enamel powders
71 *I. D. Strychalski, N. D. Mohl, W. D. McCall, Jr and A. A. Uthman:* Three year follow-up TMJ patients: success rates and silent periods
79 *M. Renaud, P. Mercier and A. Vinet:* Mastication after surgical reconstruction of the mandibular residual ridge
85 Book reviews

NUMBER 2, MARCH 1984

89 *H. Letzel and M. M. A. Vrijhoef:* The influence of polishing on the marginal integrity of amalgam restorations
95 *H. Letzel and M. M. A. Vrijhoef:* Long-term influences on marginal fracture of amalgam restorations
103 *K. D. B. Faulkner and H. F. Atkinson:* Mandibular movement in lateral excursions
111 *C. H. Lloyd:* A differential thermal analysis (DTA) for the heats of reaction and temperature rises produced during the setting of tooth coloured restorative materials
123 *N. G. Clarke, G. C. Townsend and S. E. Carey:* Bruxing patterns in man during sleep
129 *M. L. Broekhuijsen, J. D. van Willigen and S. M. Wright:* Relationship of the preferred vertical dimension of occlusion to the height of the complete dentures in use
139 *H. v. d. Veen, H. Scholtanus and J. Arends:* Quantification of marginal leakage of amalgam restorations *in vitro*

147 *R. S. McCarroll, M. Naeije and H. Zorn:* Influence of chin tap force and bite force parameters on the duration of the electromyographic silent period
157 *T. Osterberg, S. Landahl and B. Hedegård:* Salivary flow, saliva, pH and buffering capacity in 70-year-old men and women
171 *L. J. Pluim, J. Arends. P. Havinga, W. L. Jongebloed and I. Stokroos:* Quantitative cement solubility experiments *in vivo*
181 *M. Kleinrok:* Occlusal adjustment under the control of intra-oral recording with the aid of the functiograph
191 *L. V. Christensen and S. E. Mohamed:* Contractile activity of the masseter muscle in experimental clenching of the teeth in man

NUMBER 3, MAY 1984

201 *R. M. Watson, R. D. Welfare and A. Islami:* The difficulties of prosthetic management of endentulous cases with hemi-mandibulectomy following cancer treatment
215 *M. Wijnbergen-Buijen van Weelderen and P. J. van Mullem:* Bacteria-tight sealing of exposed dog pulps
219 *R. A. Moss and H. E. Adams:* Physiological reactions to stress in subjects with and without myofascial pain dysfunction symptoms
233 *R. A. Moss and H. E. Adams:* The assessment of personality, anxiety and depression in mandibular pain dysfunction subjects
237 *R. Grajower and J. Goultschin:* The transverse strength of acrylic resin strips and of repaired acrylic samples
249 *M. Ahmad and J. C. Glyn Jones:* An investigation into the type of union achieved between cast cores and Wiptam wire posts
257 *C. H. Lloyd and L. Mitchell:* The fracture toughness of tooth coloured restorative materials
273 *M. Funakoshi, M. Nakashima, K. Noda and E. N. Gale:* Effects of biofeedback training on tonic masticatory neck reflex: a case report
277 *L. Dahlström and S. G. Carlsson:* Treatment of mandibular dysfunction: the clinical usefulness of biofeedback in relation to splint therapy
285 *D. C. Watts and R. Smith:* Thermal diffusion in some polyelectrolyte dental cements: the effect of powder/liquid ratio
289 *C. Mejersjö and G. E. Carlsson:* Analysis of factors influencing the long-term effect of treatment of TMJ-pain dysfunction
299 *J. Rajstein and M. Tal:* The effect of ultrasonic scaling on the surface of Class V amalgam restorations—a scanning electron microscopy study

NUMBER 4, JULY 1984

307 *E. Gazit, M. Lieberman, R. Eini, N. Hirsch, V. Serfaty, C. Fuchs and P. Lilos:* Prevalence of mandibular dysfunction in 10–18 year old Israeli schoolchildren

319 *C. H. Lloyd and E. A. Brown:* The heats of reaction and temperature rises associated with the setting of bonding resins
325 *C. Riise and A. Sheikholeslam:* Influence of experimental interfering occlusal contacts on the activity of the anterior temporal and masseter muscles during mastication
335 *E. H. Greener, C. S. Greener and J. B. Moser:* The hardness of composites as a function of temperaure
341 *L. V. Christensen:* Cumulative electromyography of the human masseter muscle during fatiguing isometric contractios
351 *D. McTigue, C. Brice, C. R. Nand and N. K. Sarkar:* The *in vivo* corrosion of Dispersalloy
361 *G. M. Murray and I. J. Klineberg:* A standardized system for evoking reflexes in human jaw elevator muscles
373 *M. J. Shaw:* Attachment retained overdentures: a report on their maintenance requirements
381 *G. T. Clark, R. Jacobson and P. L. Beemsterboer:* Interdental thickness discrimination in myofascial pain dysfunction subjects
387 *G. T. Clark, P. L. Beemsterboer and R. Jacobson:* The effect of sustained submaximal clenching on maximum bite force in myofascial pain dysfunction patients
393 *C. H. Lloyd:* The fracture toughness of dental composites. III. The effect of environment upon the stress intensification factor (K_{IC}) after extended storage
399 *D. Fisher, A. Markitziu, D. Fishel and L. Brayer:* A 4 year follow-up study of alveolar bone height influenced by two dissimilar Class II amalgam restorations
407 *W. N. Williams, L. L. La Pointe and R. S. Blanton:* Human discrimination of different bite forces

NUMBER 5, SEPTEMBER 1984

415 *W. J. Ralph and J. R. Jefferies:* The minimal width of the periodontal space
419 *B. de Mot, M. de Clercq and P. Rousseeuw:* Visco-elastic properties of four currently used tissue conditioners
429 *I. W. M. Jeffrey:* The relationship of lining thickness and thermal insulating efficiency
441 *L. Mollersten:* Guiding sleeve tilt angle in paralleling instruments
455 *T. Maruyama, K. Nishio, M. Kotani, S. Miyauchi and T. Kuroda:* The effect of changing the maxillomandibular relationship by a bite plane on the habitual mandibular opening and closing movement
467 *S. M. Wright:* The effect of body posture on the preferred vertical dimension of occlusion
477 *Z. Hirschfeld, M. Friedman, G. Golomb and D. Ben-Yaacov:* New sustained release dosage form of chlorhexidine for dental use: use for plaque control in partical denture wearers

483 *B. Monteith:* The role of the free-way space in the generation of muscle pain among denture wearers
499 *J.-F. Roulet, T. Hirt and F. Lutz:* Surface roughness and marginal behaviour of experimental and commercial composites: an *in vitro* study

NUMBER 6, NOVEMBER 1984

511 *Th. Hirt, F. Lutz and J.-F. Roulet: In vivo* evaluation of occlusal wear of two experimental composites versus amalgam
521 *R. S. McCarroll, G. L. J. M. Honee and M. Naeije:* Relationship of electromyographic parameters in jaw dysfunction patients classified according to Helkimo's index
529 *N. G. Clarke and G. C. Townsend:* Distribution of bruxing patterns in man
535 *H. H. Renggli, B. Allet and J. Spanauf:* Splinting of teeth with fixed bridges: biological effect
539 *P. M. H. Dummer and M. Wills-Wood: In vitro* plaque formation on dental amalgam
547 *G. W. Kroon and M. Naeije:* The influence of stimulus type and stimulus strength on the silent period in human masticatory muscles
555 *I. Jerusalemi, M. Friedman, A. Markitziu and I. Gedalia:* Enamel dissolution and fluoride uptake from sugar solutions
561 *R. Grajower, S. Bielak and E. Eidelman:* Observations on a calcium hydroxide lining in retrieved deciduous teeth, with proximal amalgam fillings
571 *R. W. Bryant:* Microprobe analysis of dental amalgam alloy particles of Ag–Cu eutectic composition
579 Index to Volume 10
